Sounds like Bruce wants to talk about our comments on the last version. What do you think?

Kimi – can you let me know your availability for a brief overview of the comments. Your schedule looks full the next few days, so I thought I'd check to see if you can squeeze a half-hour to 45 minutes in somewhere.
Thanks.

Bruce

Hi Bruce –

Ex. 5 AC/DP

suggest sending a clean version around so we can see how it all comes together. Making good progress!

Thanks, Kimi

Subject: DB ESA - Latest Version

Hi Kimi,

Thanks for taking part in our conference call today. I appreciate your efforts in shaping our Dewey-Burdock ESA consultation.

I checked for more cosmetic changes before attaching the latest version. With that said you may find even more! As we discussed today, please feel free to make any changes.

It may be best to "save as" with the same name adding perhaps the number 2 at the end – or whatever sounds good to you.

I look forward to your changes, and will gladly meet with you shortly thereafter to address and clarify some of the comments.
